A TRAIN 88 MILES LONG

WOULD REQUIRE ONE OF THAT LENGTH TO HAUL GOODS SHIPPED IN AND OUT OF ADA LAST YEAR.

BEST TOWN IN OKLAHOMA

From A Country Village to A City of Six Thousand Population in Eight Years.

The readers of the News may be a little slow in believing the statement in the caption of this article, but it is true, nevertheless; for some time and much pains have been taken in the collection of this data.

The volume of business increases from year to year, and now it has reached such proportions that it would require a solid train 88 miles in length to carry the tonnage shipped in and out of Ada the past year. This does not include the local freight or car lots of goods received by local merchants, but represents the business of the wholesale houses, and the jobbing business, including the cement plant and asphalt works.

Just think of it! If all of the cars required to carry this business was coupled together it would make a train long enough that while the engine drawing it was in Ada the caboose would be in Oklahoma City, or if the caboose was in Ada the engine would be in Denison, Texas. We make this comparison of length that you might have a better conception of the immense amount of business of our city.

From every point of view, Ada is the best town in South-Central Oklahoma. It is not our intention at this time to go into details of the growth of the city, but in this connection want to say that in the past eight years she has grown from a mere village, when ridges of corn rows could be seen in Main street, to a city of six thousand people, and her importance from a commercial

Son-In-Law Uses Gun in Row With Father-In-Law.

Monday afternoon about 5:30 at the home of M. N. Mays three miles north of the Lanham school house, old man Mays and his son-in-law, A. N. Gibson, became involved in a family row, and Gibson resorted to a six-shooter as a weapon of combat. He fired one shot which struck Mays in the hip, inflicting a flesh wound. Officers were notified and constable Bill Adair went to the scene and the arrest of Gibson followed. He was brought to Ada and made bond in the sum of \$1,000. May's wound is not serious.

HELP THOSE CITIZENS

WHO WOULD HELP YOU

In nearly every community there are a few citizens whose leadership, if requested and examples, if followed, there would be contributed in sum total to the interests of the community of their residence such a vast amount of results that the benefits achieved in prosperity and happiness would accede what has ever been accomplished in such particular sphere by human organized endeavor.

There are citizens of the city of Ada whose present financial responsibility proves their business level headedness and whose public spiritedness is unquestioned. Such men

should receive the heartiest encouragement from the rank and file of all the people who have located in this city for the purpose of earning an honest living and contributing properly to society, for an evident award of support and readiness to co-operate will assuredly secure from these more capable and attractive local citizens an active participation in affairs of public importance and town building.

If the city of Ada should become the most attractive to its people, there must be earnest endeavor to build to the highest excellence its civic, educational and industrial institutions.

SENATOR GORE'S PLATFORM FOR DEMOCRATS

OKLAHOMAN PROPOSES COMMON GROUND AS BASIS FOR HARMONY IN THE PARTY.

All True Democrats Can Unite On General Platform, Says the Senator.

Boston, Mass., Oct. 25.—Senator Gore of Oklahoma in an interview here points out the way for National Democratic victory. "What the Democracy needs first," he said, "is complete harmony and peace. All true Democrats can unite on the following general platform:

"They can come together on tariff for revenue only with immediate reduction of duties on the necessities of life and reasonable duties on luxuries. By reducing the woolen

schedules we could raise annually \$30,000,000 to \$40,000,000 on account of increase of trade and at the same time promote general industry instead of restricting manufacture.

"Democracy can be united on the nomination and election of United States Senators by direct vote of the people. It can unite on the income tax. Another important plank is a customs union between the countries of the Western Hemisphere, so that the United States may acquire the enormous trade in some markets that naturally belongs to it. We can unite against the iniquitous system that has driven our merchants marine from the sea and against the proposed ship subsidy. The present system is merely a rule of the millions by a combination of conscienceless capital. The governed must be reinstated in the right to govern and the despotism must end."

TRYING TO MIX UP MAYOR HENRY SCALES

WOULD CONNECT OKLAHOMA CITY
CHIEF EXECUTIVE WITH AL-
LEGED ADA CEMENT DEAL.

Relates that Heber Harter, Business
Associate of Mayor, Who is Nephew
of President Adam Beck, Must Go
Before Grand Jury.

The Oklahoma county grand jury
under the direction of attorney Gen-
eral West is making a wholesale
probe of alleged graft and crooked-
ness among certain city and county
officials.

Already a republican county com-
missioner and chairman of the Board
has resigned his position interior
and prepared to talk his boots off
and it is reported that other elective
county officers are about to give the
dung hill squawk.

Two indictments, one for embezzle-
ment and one for forgery, have al-
ready been found against chief of
police Hulbatka, who is a republi-
can.

It now appears that certain parti-
san republicans in Oklahoma City are
most industriously and as shame-
lessly trying to muddy the waters
and distract the public's attention
from the glaring fact that republican-
ism in Oklahoma City has heretofore
selected as its party nominees men
of tarnished characters and sup-
ported them persistently by under-
taking to play dirty politics against
Henry Scales, Oklahoma City's splen-
did mayor. In last spring's mayoral-
ty campaign, the leading charge of
the opposition was that Mr. Scales
owned stock in the Ada Cement
Mills and would probably prefer to
see Ada cement used on all public
contracts.

Now, it appears there is under-
taking to tarnish the democratic may-
or for the reason his business asso-
ciate, Heber Harter, is alleged to
have received 10 cents a barrel com-
mission on Oklahoma City sales for
the Ada mills. Mr. Harter is an ac-
complished young citizen of Okla-
homa City and a favorite nephew
of Col. Adam Beck, president of the
local Portland Cement Mills.

Following is a press mention re-
garding Messrs. Scales and Harter
in the grand jury probe write up:

Cement Contracts Probed.

Oklahoma City, Oct. 25.—Paving
contracts are believed to be in the
limelight in the grand jury room.
Although Mayor H. M. Scales was
not present yesterday, it was rumo-
red in the court corridor that the in-
quisitorial body was busily engaged
'probing' charges of an alleged profit
of 10 cents per barrel on cement or-
dered and shipped from a certain
plant located at Ada, Okla. It was
further charged that Mayor Scales
owned some stock in the plant.

Mayor Scales states without hesi-
tation that the only profits he has
ever received in connection with
this company have been in dividends
on his stock therein.

Co-Partner Coming.

Heber Harter, business co-partner
of Mayor Scales in the alleged cem-
ent 'deal' while not as yet sum-
moned before the grand jury, may
possibly be called this week to de-
termine whether he is salesmanager
of the cement company at Ada. Har-
ter at present is said to be in Lima,
Ohio. A telegram sent by Attor-
ney General West yesterday is be-
lieved to be significant of the fact
that possibly Harter's testimony may
be interesting to the grand jury.

GAYNOR SEEMS IN LEAD IN NEW YORK

REPUBLICANS NOT VERY CON-
FIDENT OF BANNARD. BELIEVE
WILL ELECT OTHER OFFICERS.

Two to One Is Being Bet on Gay-
nor, with Few Taken.

New York, Oct. 24.—With both
regular organizations predicting vic-
tory for their tickets and the ener-
gies of both centered on the elec-
tion of Nov. 2 of the nominees who
will have seats in the Board of
Estimate, the campaign of 1909 enters
on its last week.

Republicans believe they will elect
the Controller, President of the
Board of Aldermen and the county
and borough tickets. They say they
will elect Mr. Bannard, but they ad-
mit they are not certain of that.
That they feel confident of electing
the other officials is plainly appar-
ent.

And it is said to be obvious that
the Democrats are greatly concerned
about the other nominees besides
the Mayor. They declare there is not
a shadow of doubt as to the election
of Judge Gaynor, and they are pro-
ducing large sums of money to back
their belief.

Estimates and canvasses have been
taken by both organizations in many
parts of the city. One poll in a
large East Side factory, which for
twelve years has been an unfailing
barometer of political conditions,
showed that Judge Gaynor will re-
ceive in the factory twice as many
votes as Mayor McClellan received
in 1905, and that a great many of
the Gaynor men will vote for the
remaining fusion nominees. This in-
formation, which was taken to Tam-
many Hall, caused some disquietude.

Differences of opinion are usually
the causes of betting, but today dif-
ferences of opinion as to what con-
stitutes fair odds worked to prevent
the placing of large bets in the Wall
street district, Gaynor men refusing
to give better than 2 to 1, while
Bannard followers asked 2-1-2 to 1.

At this latter figure Raynor God-
win had \$20,000.00 to place on the
Bannard end, in lots of from \$1,000
up. Representatives of the larger ex-
change houses had big blocks of Gay-
nor money, but they would not place
it at these figures.

Consequently there were but two
bets during the day, one of \$1,000 to
\$500 and another of \$2,500 to \$1-

"OWN YOUR OWN TEAM AND PAY TWO MEN AND REDUCE INSURANCE," SAYS INSURANCE COMPANIES.

TNE CITY BEING RE-RATED

The Council will Determine Next Monday Night Whether the Additional Investment Proposed Is Worth the Whistle.

Mr. Irby B. Murey, of the Oklahoma Fire Inspection Bureau, is in the city for the purpose of compiling a new rate on all classes of insurable property. After an examination of the present insurance rates governing in this city and an inspection of the water works system and of the fire department, this rate inspector stated that very little was lacking to raise the class of this city where something like a 20 per cent reduction would be made on dwellings and probably a corresponding reduction on other classes of Ada property. When information was solicited from Mr. Murey regarding those essentials that the fire department lacked before the rate insurance throughout the city could be reduced, he stated that the rating bureau would require the ownership by the city of the fire team and the employment of two firemen, one of whom should remain at the fire station at all times.

Mr. Lem Little, the Mayor, when confronted with the proposition of improved fire department and reduced fire rates, was very positive in his attitude of desiring that the rating bureau's requirements be met and that rates be reduced, still he was unwilling to commit himself at this time to the employment by the city of two paid firemen, "for," he said, "an inadequate levy was made for such support of the fire department and Oklahoma has the peculiar law of refusing to allow, within the current year, the warrant issuance above 80 per cent of an assessment." "However," continued the mayor, "the council on last night appropriated \$4,000.00 from the sewer fund to the City Hall fund and the outlook is that the city would derive as many more thousand from the sale of its lots adjoining the city hall and will be in a position to make the fire department more responsible if the council should feel so disposed at its next meeting."

Mr. Murey, of the rating bureau, talked with his chief, Mr. Ingalls, at Oklahoma City this afternoon, and it was agreeable to give the council until next Monday night to determine whether they would meet the requirements of the rating bureau, thereby reducing substantially the insurance cost throughout the city.

Every few weeks a carload of apples are shipped into Ada from other states. Barring a failure like that of this year, this should not be the case. Pontotoc county soil is especially adapted to the growing of fruits of all kinds and more and easier money could be made if our farmers would devote some time and study to horticulture. Put out an orchard this coming spring.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
